(Ranked 1 to 40)		The "Market" entry represents a method of compiling the statistical composite of all the choices made in this week's pool. This is an experiment and has no bearing on the outcome of the pool.																																														
		Entries are in the order of last week's scoring until we get some game results for this week. Cumulative scores aren't finalized until final game for week finished. The Cumulative Score only shows for full-season participants.
